Futura SIXTH

futuresixth.org.uk

The possibilities are infinite

It is an exciting time to join Futura Sixth at SBL! Our Sixth Form Centre of Excellence has been refurbished and extended to provide a mature environment to accommodate our growing numbers.

You will be supported, challenged and inspired by our expert and friendly team of post-16 staff who will empower you to achieve your ambitions, be that a top university, an advanced apprenticeship or another pathway.

Our broad and balanced enrichment programme will fast-track your personal development so you can enjoy a happy, fulfilled and successful life.

Opening doors to opportunity

BUILDING YOUR future

At Wellsway, we have an ambitious but inclusive curriculum that meets the needs and ambitions of students and the community. Alongside academic qualifications, we aim to equip you with practical and personal skills for adult life.

Our sixth formers benefit from specialist staff and small class sizes. They have their own dedicated areas including a common room, café and study room, as well as access to the school's extensive facilities.

Our broad and bespoke programme includes expert guidance on careers and next steps. We offer sport, arts, and other enrichment and volunteering opportunities plus work experience for all Year 12s.

Developing confident, respectful and successful young people

Taking learning to a whole new level

Young people need more than a "one size fits all" education to succeed in today's world. At IKB, you can be part of a unique sixth form where you are known, understood, and encouraged to excel.

We keep our sixth form small deliberately so students get individual attention and support. Our wide curriculum has a clear focus on Science, Technology, Engineering and Maths (STEM) subjects, and we have strong industry connections.
